Mr. Bill Richardson
2645 Youth Monroe Road
Monroe, GA 30655

Dear Bill,

I had heard that your program was one that would be beneficial to our students, but had no idea how powerful your presentation would be until I saw it for myself. Our students were genuinely moved. I would readily recommend your program to any school administrator interested in the safety and wellbeing of their student body.

It is wonderful to know that there are people like you and Lauren who have made it their mission in life to help our children think about what they are doing before they get behind the wheel of an automobile. You captured our students' attention and made a lasting impression.

There is nothing more devastating than the senseless loss of our young people. Thank you for taking a strong proactive stance to bring to their attention that it could happen to them.

With sincere appreciation,

Mark D. Wilson, EdD
Principal
