RE: T. V. I. P. Presentation @ Savannah Christian Prep

Mr. Richardson:

On behalf of our students, parents and faculty, I wanted to thank you for the dynamic presentation to our students last week. The Teen Victim Impact Program clearly resonates with the students in attendance. As stated, your mission to change the attitude of "it will not happen to me" was well received. Below are just a few of the statements I have received from our student body:

"The driving program on Thursday made me really realize how serious driving is and how careful we must be for every decision that we make. I have had two good friends just pass away recently and it's just so unbelievable how easy it is to lose such a nice and innocent friend. Those two deaths made me really be aware that I must ALWAYS wear my seat belt because it saves lives for sure." -- Nicole

"I actually walked out of our chapel with a new attitude. I never really looked at how important wearing one simple belt could be. I will be driving in three months, and I will be a lot more cautious. Today, I make sure my seatbelt is on while I'm in the car with my parents or anyone else." -- Maiya

"It really affected me because I have lost 3 friends in the past 2 years from car accidents. I learned that texting and driving is more dangerous than drinking and driving. The program opened my eyes to the dangers of driving. I learned that I am responsible for those in my car. The program helped me realize the consequences of my actions and will make me a safer and responsible driver." -- Hayden

I highly recommend this program to other school administrators. It gets students attention in a positive way. You should be commended for your commitment to the safety of our children. Keep up the good work.

Sincerely,

Ashley Barnwell
Principal, Upper School

Developing the whole person to the glory of God.
