Dear Bill:

On behalf of the Jewish Women's Foundation of Wake County I want to thank you for providing our community with an unforgettable presentation. The information you provided and the manner in which you conveyed it made an indelible impression on all who were privileged to hear your talk. It meant a great deal to the foundation to offer your program which we feel will have a lasting effect on our young people and their families.

Our hope is that, because of our combined efforts, others will not only learn of your organization but will also want to "spread the word." Together we can try to save lives of young drivers and their passengers.

We remain committed to your cause because it is so important. We will continue to make schools and other civic organizations aware of what you have to offer.

Thank you – and your wife – for everything you brought to our community.

Sincerely,

Sandy Deutsch Crane.
