Mr. Bill Richardson
Teen Victim Impact Program
2645 Youth Monroe Rd.
Monroe, GA 30655

Dear Mr. Richardson:

I wanted to let you know how much I appreciated your presentation of the Teen Impact Program. The videos made a huge impact by giving the students a visual image of the damage that can be caused by careless behavior and the victims' stories made the message emotional and personal.

I have heard nothing but positive comments from our student body about the assembly. Many have asked me why we did not do this before now. I know several students have taken the message outside of this building and have also researched more on their own, even visiting your Facebook page.

I am pleased our school had the opportunity to work with and include you in our "Don't Text and Drive" campaign. Please know you truly made an impact on our students. I look forward to having you visit us in the future to share this message with other students who enter our school.

Sincerely,

Kimberly M. Fraker, Ed.D.
Principal
